

## **PENTEK®** PCF SERIES MIXED BED DEIONIZATION CARTRIDGES

DESIGNED TO MEET THE REQUIREMENTS FOR DEIONIZED WATER IN MANY INDUSTRIES

---

**Pentair® Pentek® PCF Series Filter Cartridges** have been developed in response to the requirements for deionized water in many industries.

They are manufactured using resin that has been subjected to additional post-production steps to minimize the total organic carbon (TOC) level.

These high-capacity, semi-conductor-grade resin cartridges are ideal for use in pharmaceutical and medical laboratories, cosmetics, and circuit board printing applications.

PCF Series Cartridges are available in three sizes, flow rates and capacities. They are convenient and cost-effective for many applications where low levels of total organic carbon (TOC) and total dissolved solids (TDS) are required.
